Reissue Applications

1. The reissue oath/declaration filed with this application has been corrected per 37 CFR 1.175 and MPEP § 1414 to overcome claim rejections under 35 U.S.C. 251. It does contain a statement that all errors which are being corrected in the reissue application up to the time of filing of the oath/declaration arose without any deceptive intention on the part of the applicant, per 37 CFR 1.175 and MPEP § 1414. The applicant or his attorney has referenced a particular claim (or claims) and the specific claim language wherein lies the error (see MPEP 1414, Part II) and the applicant or his attorney has pointed out how (or when) the error arose or occurred. Therefore the non-final rejections of claims 1-12 and 20-25 mailed on 12-12-2007 is withdrawn.

Response to Amendment

2. The amendment filed 12-12-2007 to correct reissue oath/declaration filed with this application per 37 CFR 1.175 and MPEP § 1414 to overcome claim rejections under 35 U.S.C. 251.

3. Applicant has amended disclosure by inserting a reference to the co-pending application # (11/408,528) and (11/408,669) as the first sentence(s) of the specification of this application; required under 37 CFR 1.56 and has brought to the attention of the examiner, or other Office official involved with the examination of the instant application, information within their knowledge as to other co-pending United States applications which are “material to patentability” of the application in question.

4. **Status:** Please all the replies and correspondence should be addressed to examiner's new art unit 2629. Receipt is acknowledged of papers submitted on 12-12-2007 under amendments, which have been placed of record in the file. Claims 1-12 and 20-25 are pending in this action. Claims 13-19 and 26-115 are cancelled.

Allowable Subject Matter

5. Claims 1-12 and 20-25 are allowed.
6. The following is an examiner's statement of reasons for allowance:
7. Applicant has amended oath/declaration to correct reissue oath/declaration filed with this application per 37 CFR 1.175 and MPEP § 1414 to overcome claim rejections under 35 U.S.C. 251. Applicant's arguments filed on 12-12-2007 are convincing. As argued by applicant in remarks under claim rejection page 13, the prior art cited on 892's 1449's, searched in NPL and searched in PGPUB, fails to recite or disclose all the other limitations of independent claims in combination with uniquely distinct features represented by underlined bold claim limitations recited below;

a digital circuit for receiving said time reference signal and a feedback signal, wherein said feedback signal is generated by dividing said sampling clock, said digital circuit generating said digital input according to the difference of the phases of said time reference signal and said feedback signal, said digital input causing said clock generator circuit to generate said signal synchronized with said time reference signal; a frequency correction logic for adjusting the phase of said sampling clock according to the long-term drifts in said time reference signal frequency; and a phase correction logic for adjusting the

phase of said sampling clock according to the phase difference in said feedback signal and said time reference signal, wherein said frequency correction logic and said phase correction logic are implemented as two separate control loops.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

8. Applicant's arguments, see remarks, filed 12-12-2007, with respect to claims rejections under 35 U.S.C. 251 have been fully considered and are persuasive. The non-final rejection of 08-03-2007 has been withdrawn.

Conclusion

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to PRABODH M. DHARIA whose telephone number is (571)272-7668. The examiner can normally be reached on M-F 8AM to 5PM.

10. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
